BIOGRAPHY

Aloha!

My name is Ng Wei Jian, born in 1st January 1999, Johor Bahru, Malaysia. I am a second-year Computer Science student from Faculty of Computing Informatics, Multimedia University Cyberjaya, and my specialization is Software Engineering with current CGPA **3.09**.

For my hobbies, I like to have some physical workouts (like badminton, marathon) to keep my mind disciplined so I still can stay active on my academics. Other than physical workout, I like to solve some common algorithm questions on **LeetCode** platform, and it really help me to refresh my problem solving skills!
